Q36 - Annotation Servlets Definition [6]

Which statements are true about classes annotated with `@WebServlet`?

- a. they must extend the `javax.servlet.GenericServlet` class
- b. they must extend the `javax.servlet.http.HttpServlet` class
- c. they must implement the `javax.servlet.Servlet` interface
- d. none of the above is correct

[Hide answer](#)**b**

Reference: page 62, 8.1.1 "@WebServlet"

Explanation: Classes annotated with `@WebServlet` annotation must extend the `javax.servlet.http.HttpServlet` class.
